# 2017 Annual Report to the School Community

School Name: Hastings Primary School School Number: 1098

# **About Our School**

### School Context

Hastings Primary School is located in the regional township of Hastings, on the Western Port side of the Mornington Peninsula. The school has a long and proud history of over 140 years, valuing the contributions of families past and present. The school currently has a student population of 248 as of February 2017 census, with a relatively small population of ATSI and EAL students.

The School Strategic Plan 2016 – 2019 was completed in early 2016, with priorities based on the Framework for Improving Student Outcomes (as listed below). The school enjoys a strong sense of community and the mutually supportive partnerships between students, parents/carers and staff have become a feature of the school. We also benefit immeasurably by the fantastic contribution made by our large band of committed volunteers drawn from the school and broader community.

The Victorian Curriculum is the basis of all curriculum in Foundation – Year 6, with significant team planning ensuring effective and engaging delivery. State of the art information technology and teaching and learning approaches greatly support and impact positively on student learning growth and outcomes.

The school recognises the key role that parents and carers play in their child/ren's learning and these partnerships are actively promoted and supported. The school's Friends of Hastings Primary School volunteer team continues to support and promote school community connectedness through a range of social and fundraising activities. The school is also well supported by community groups, agencies, services, local businesses and clubs

The school's workforce consists of a combination of skilled and dedicated teaching staff, supported by education support staff who add a wide range of skills and interests to the programs and activities offered at the school. The school has a NSCP funded chaplain 2 days per week. Allied health professionals work closely with the school community, with services including speech pathology, occupational therapy, paediatric clinic, student counsellor and psychologists.

As a nationally accredited Kidsmatter school, a significant commitment has been made to support and nurture the wellbeing of all community members. A school culture consistently displaying respect, integrity, inclusion, and connectedness is strongly evident.

Due to high levels of disadvantage, the school receives substantial social equity funding from government. While overall student numbers have remained stable over the past 6 years, levels of family mobility and transience can be high. With this additional funding, teachers and support staff are employed to provide learning interventions for students working below, at and above the expected student outcomes.

The School Council ensures the school facilities (grounds, buildings and resources (human and physical) are well placed to deliver diversity and choice to enhance curriculum provision and student wellbeing support.

### Framework for Improving Student Outcomes (FISO)

Framework for Improving Student Outcomes (FISO) priorities are:

Priority 1: Excellence in teaching and learning Domain: Evaluating impact on learning.

Continuing progress is being made on building the capacity of staff to effectively use the available assessment tools, allowing for consistent use of data and other evidence to inform teaching and learning in Literacy and Numeracy.

Now in the 3<sup>rd</sup> year of the School Strategic Plan, the school continues to work on creating a consistent whole school approach to learning and teaching that is engaging and effective. The professional learning for staff is based on the identified needs of specific curriculum areas, individual and team needs and emerging initiatives in education. The Department of Education and Training requires rigourous performance and development standards for staff, and we continue to provide the means for continuous development of staff to deliver high quality, engaging and motivational teaching and learning experiences for students.

Priority 2: Positive climate for learning Domain: Intellectual engagement and self awareness

Continuing progress is being made in improving school engagement and attendance by promoting student voice, feedback and self directed learning.

**Priority 3:** Community engagement in learning **Domain:** Building communities

Continuing progress is being made in promoting mental health and wellbeing through the Kidsmatter framework, involving a whole school approach and integration of wider community professional services.

### Achievement

National assessment data for English and Mathematics in Year 3 and 5 provides evidence of the school's focused efforts in improving student learning outcomes. Although not meeting state median performances, the school's performance in 2017 against the intake adjusted like school cohort in Year 3 and 5 Numeracy shows consistently similar outcomes as would be expected when accounting for background characteristics known to make a difference to students' results. In 2017 the Year 3 Reading results showed similar performance when compared to like schools, with the Year 5 Reading results being higher than the expected in the school comparison data. 2017 NAPLAN performance summary data showed a slight improvement in both Literacy and Numeracy in year 3 and Year 5.

Reading outcomes continue to improve, and the long term commitment of literacy coaching and whole school reading workshop strategies continues to be evidenced in the Year 5 NAPLAN outcomes for 2017. To ensure this progress is continued, in 2018 additional support will continue to be provided in Foundation – Year 3 classes, and specifically for literacy development.

Continued focus on spelling, grammar and punctuation throughout the SSP period 2016 - 2019 is expected to support improved literacy skills in all areas of writing. While 2017 outcomes have shown no improvement, the 2018 Annual Implementation Plan will support further development and progress in this area.

A professional learning focus on Literacy and Numeracy teaching and assessment has resulted in a more consistent, school wide approach to teaching and learning.

Focused work in Reading, Writing and Numeracy has resulted in the learning growth between years 3 and 5, for the matched cohort at this school, exceeding the State mean for learning growth. This has been evident in both 2016 and 2017. NAPLAN Learning Gain between Year 3 and Year 5 (same students) data is evidence of increased degrees of growth in Grammar and Punctuation and Numeracy in 2017. More students are experiencing medium and high growth than in past years. This continues to be a goal for 2018.

### Engagement

Student engagement is a significant measure of the future success of our students, academically, socially and emotionally.

Building and sustaining student engagement is approached through a wide range of strategies, beginning at the whole school level, then to specific student cohorts and finally at the individual student level. Whole school approaches include

- Kidsmatter framework components of building a positive school community engaging families not just students, and explicitly teaching and embedding strong social and emotional skills and understandings in all community members.
- A school culture of respect, tolerance, community, compassion, self discipline and friendliness.
- Engaging parents, and valuing their contributions, in their children's learning and development.
- High expectations in the areas of student behavior and attitude and school attendance, with relevant acknowledgements an important part of every day.
- A consistent, transparent Student Well Being Policy and Code of Conduct, well respected by all members of the school community.

Based on student, parent and staff surveys, school based documentation and attendance data, the school has documented evidence of ongoing improvements in the areas of student management, student connectedness, student engagement and attendance, which we believe will continue to impact positively on student learning outcomes in the future.

In 2017 the average number of student absence days at all levels was within the 'similar' range for school comparison purposes. All year levels, except Year 6, had attendance rates at or above 91%, with Year 6 being 89%.

2018 will see further development and application of the Attendance Policy and program, which identifies students at risk, and instigates a case by case management plan, supported by the wellbeing team.

### Wellbeing

Hastings Primary School supports the wellbeing of students and their families by providing a high level of care and support to our community through the Kidsmatter framework and associated policies and actions.

The school has a strong approach to supporting wellbeing and has developed close links with health providers and service agencies to support a well managed and shared approach to student wellbeing. In this way, the school supports the wellbeing of identified 'vulnerable' students and their families. The Well Being team has a strong commitment to ensuring the sense of well being, safety and connectedness is well established for the school community, and specifically for our students.

The new Attitudes to School 2017 survey results show students' have positive responses to Stimulated Learning, Attitudes to Attendance, High Expectations for Success, Sense of Inclusion, and Motivation and Interest. While there is no comparison data, continued efforts are required to improve students' perception of Not Experiencing Bullying and Sense of Connectedness. The school's focus will continue on the development of positive relationships and the explicit teaching of social and emotional learning curriculum.

Overall the management of student behaviour in classrooms is regarded as effective and responsible for the more positive responses in student motivation and independent learning and engagement. All in all, the school's well being outcomes in relation to student attitudes remain similar to other like schools.

Children across the school regularly interact and work with staff from different levels and specialist backgrounds. They experience change, develop flexibility and adaptability, and build resilience and confidence. Further transitions are supported at the end of each year in readiness for the following year.

Parent Satisfaction survey results in 2017 provided strong evidence, through data and comments, that there was a high level of satisfaction, 83%, in the overall performance of the school's curriculum programs, student engagement strategies and student wellbeing support.

For more detailed information regarding our school please visit our website at hastings.ps@edumail.vic.gov.au

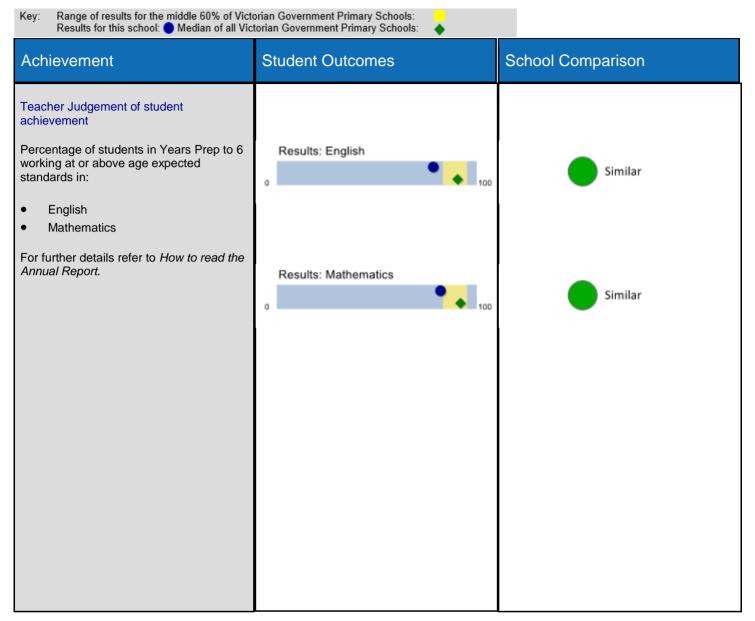

The Government School Performance Summary provides an overview of how this school is contributing to the objectives of the Education State and how it compares to other Victorian Government schools.

All schools work in partnership with their school community to improve outcomes for children and young people. Sharing this information with parents and the wider school community helps to support community engagement in student learning, a key priority of the Framework for Improving Student Outcomes.

Members of the community can contact the school for an accessible version of these data tables if required.

Achievement	Student Outcomes	School Comparison
NAPLAN Learning Gain Year 3 - Year 5 Learning gain of students from Year 3 to Year 5 in the following domains: Reading, Numeracy, Writing, Spelling and Grammar and Punctuation. NAPLAN learning gain is determined by comparing a student's current year result to the results of all 'similar' Victorian students (i.e. students in all sectors in the same year level who had the same score two years prior). If the current year result is in the Top 25 percent, their gain level is categorised as 'High'. Middle 50 percent, is 'Medium'. Bottom 25 percent, is 'Low'.	Reading   27 % 68 % 5 %   Low Medium High   Numeracy   36 % 48 % 15 %   Low Medium High   Writing 50 % 50 %   Low Medium High   50 % 50 % 63 % 16 %   Low Medium High   Grammar and Punctuation 29 % 53 % 18 %   Low Medium High	NAPLAN Learning Gain does not require a School Comparison.

# How to read the Annual Report

#### What does the About Our School section refer to?

The About Our School page provides a brief background on the school, an outline of the school's performance over the year and plans for the future.

The 'School Context' describes the school's vision, values and purpose. Details include the school's geographic location, size and structure, social characteristics, enrolment characteristics and special programs.

The 'Framework for Improving Student Outcomes (FISO)' section includes the improvement initiatives the school has selected and the progress they have made towards achieving them.

# What does the *Performance Summary* section of this report refer to?

The Performance Summary reports on data in three key areas:

#### Achievement

- student achievements in:
  - English and Mathematics for National Literacy and Numeracy tests (NAPLAN)
  - English and Mathematics for teacher judgements against the curriculum
  - all subjects for Victorian Certificate of Education (VCE) examinations (secondary schools)

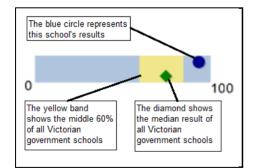

#### Engagement

- student attendance and engagement at school
  - how many students leaving school go on to further studies or full-time work (secondary, P-12 and specialist schools)

### Wellbeing

- Attitudes to School Survey (ATOSS)
  - Sense of connectedness
  - Management of Bullying

Results are displayed for the latest year, as well as the average of the last four years (where available).

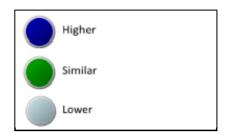

### What does School Comparison refer to?

The School Comparison is a way of comparing this school's performance to similar schools in Victoria.

The comparison measure takes into account the school's academic intake, the socio-economic background of students, the number of Aboriginal students, the number of non-English speaking and refugee students, the number of students with a disability and the size and location of the school.

The School Comparison shows that most schools are achieving results that are 'Similar' to other schools with alike student backgrounds and characteristics. Some schools are doing exceptionally well and have 'Higher' performance. Some schools have 'Lower' performance than expected and receive targeted support to ensure that there is improvement.

More information on School Comparison performance measures can be found at: <u>http://www.education.vic.gov.au/school/parents/involve/</u> Pages/performance.aspx

#### What does 'Data not available' mean?

Some schools have too few students enrolled to provide data. There may be no students enrolled in some year levels so school comparisons are not possible.

New schools have only the latest year of data and no comparative data from previous years.

The Department also recognises unique circumstances in Specialist, Select Entry, English Language and Community Schools where school-to-school comparisons are not appropriate.

### What is the Victorian Curriculum?

The Victorian Curriculum F–10 sets out what every student should learn during their first 11 years of schooling. The curriculum is the common set of knowledge and skills required by students for life-long learning, social development and active and informed citizenship.

The curriculum has been developed to ensure that school subjects and their achievement standards enable continuous learning for all students, including students with disabilities.

The 'Towards Foundation Level Victorian Curriculum' is integrated directly into the curriculum and is referred to as 'Levels A to D'.

'Levels A to D' may be used for students with a disability or students who may have additional learning needs.

'Levels A to D' are not associated with any set age or year level that links chronological age to cognitive progress (i.e. there is no age expected standard of achievement for 'Levels A to D').

### **Financial Performance and Position**

### Financial performance and position commentary

The Financial Performance Summary relates the revenue and expenditure for Hastings PS in 2017. The net operating surplus of \$117,362 is related to the additional Student Family Equity funding and the more balanced mix of experienced and graduate teaching staff employed in 2017. The financial position of School Council in December 2017 has total funds available of \$398,509 which has been allocated in the financial commitments statement for future expenditure.

With additional social equity funding the school has been able to meet the costs of additional teaching staff for professional development support (1.0 FTP), additional learning support through ES staffing (3.5 FTP) and a student counsellor. Included also is the significant professional development costs incurred in improving teacher and ES capabilities. The School Council continues to be confident that the program budgets necessary to resource curriculum and professional development, as well as the school's physical resources, is available.

Financial Performance - Operating Statement Summary for the year ending 31 December, 2017		Financial Position as at 31 December, 2017
