## Enrolment process / school tours

We are still taking enrolment for 2022. These enrolments can be handed on at the office or sent electronically. If any families are still requiring a tour please contact the office to discuss options.

We will be commencing our transition program next term. This provides all of our enrolled students the opportunity to visit the school and be involved in a dedicated session with our current Foundation teacher.

It is a great chance to meet other students and families as well as familiarise students with the area they will be entering next year.

## Carpark Safety

As the winter weather settles in, it is timely to remind everyone about before and after school drop offs and pick-ups in the Victoria Street extension.

We have noticed that **some vehicles are reversing into the angle parks** and then pulling out across the double white lines. Ensure you are driving into the angles parks front-first and NOT crossing the centre line.

Please take your time, drive slowly through this area. Always keeping the safety of our students at the forefront of your thinking.

If you have parked across the road, ensure you come and collect your child and assist them to navigate the crossing safely as it is not appropriate for the students to be crossing the road without an adult.

Don't forget to download the Flexischool app on your device to receive all updates regarding Hastings Primary School

## Respectful Relationships

Our Term Two focus continues to be Problem Solving.

Your child can develop their critical and creative thinking skills to explore different types of problems. This can build your child's ability to make responsible decisions that consider the likely consequences of different ways of solving problems.

Here is another activity to try at home to encourage your child to develop their problem solving skills.

**Goal:** Build collaboration and teamwork at home.

**Activity:** Using items that are safe and stackable (e.g. paper cups, playing cards), make a tower as tall as you can.

Once your tower is complete, remove one item at a time, trying not to make the tower collapse. Or, if you have Jenga, play it together!

**Talk:** During the build when things aren't stacking and balancing well talk about the importance of trying a different approach.

Emphasise that trying the same thing over and over will give us the same result each time. To be problem solvers we need to stop, re-think and try a new solution.

Link this to their real life the next time they have a problem by asking, *'What would be a different way that you could approach this problem?'*

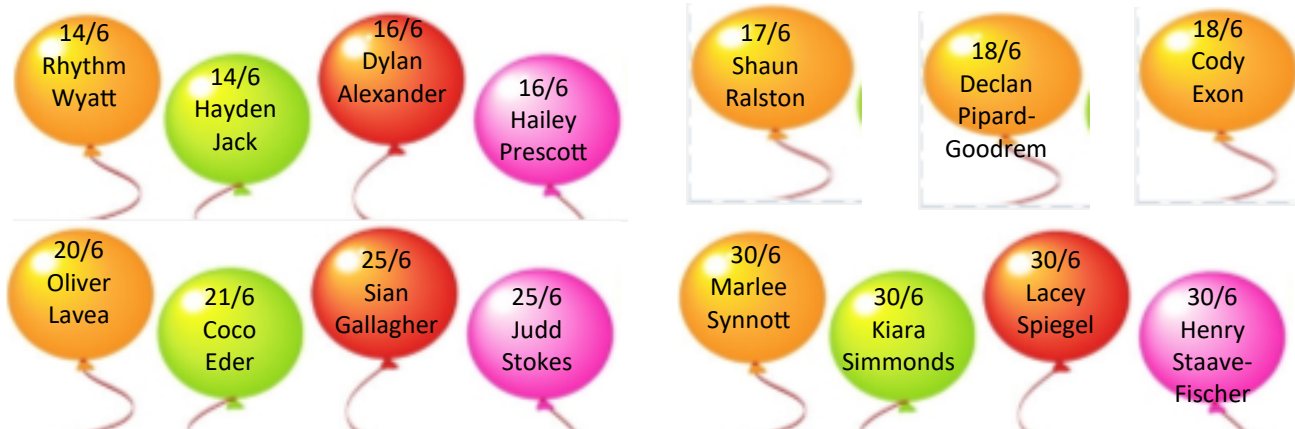

**We are a Respectful Relationships school,**

Michelle Aldridge  
Acting Assistant Principal.
